ARTS @ ZHENGHUA

A Cosmos of Talents

In Zhenghua, students are exposed to a variety of learning experiences in Music and Visual Arts to foster creativity and lifelong learning skills. Through lessons, workshops, and performances, students have the opportunity to explore different music genres, develop their talents, and gain an appreciation for the elements of music. To celebrate their musical achievements, we provide platforms for students to perform during class and assembly sessions.

We also provide opportunities for students to explore Visual Arts through learning journeys, workshops, and working with practicing artists under the AISS Scheme. To recognize the effort and good works of our students, student works are displayed around the school, and an Art exhibition was held during our annual Awards Day to share their achievements with our guests.
